OWE 40	-40	-40	-40	-40	-40	-40

REC Handicapping as per above table

15 start at 15-0 every game; 30 start at 30-0 every game
 1/6 start at 15-0 for 1 game; 2/6 start at 15-0 for 2 games, etc
 15/1 start at 15-0 every game except 1 at 30-0, etc
 30/1 start at 30-0 every game except 1 at 40-0, etc
 40 start at 40-0 every game

OWE Handicapping as per above table

15 start at 0-15 every game; 30 start at 0-30 every game
 1/6 start at 15-0 for 1 game; 2/6 start at 15-0 for 2 games, etc
 15/1 start at 15-0 every game except 1 at 30-0, etc
 30/1 start at 30-0 every game except 1 at 40-0, etc
 40 start at 40-0 every game

Scoring for Handicap Matches

- Each player/team is given a handicap which remains for the entire tournament.
- Your handicap and that of your opponent(s) are netted out to provide a start point for each game.
- Games should start relative to the starting score, eg: if it's 15-30 then the server starts on the left.
- The handicap **does not** reset after a set but applies for each series of 6 games and then resets.
- SCR means you have no handicap but start at 0 every game.
- There are **no tie-breaks** in handicap matches. Each set is a long set, to be won by 2 clear games.

Suggestions for Scoring

- Write Player/Team A handicapping on the first row.
- Write Player/Team B handicapping on the second row.
- Net off the handicapping on the third row.
- In the below example **Player/Team A** has a handicap of **REC 15/2** and **Player/Team B** has a handicap of **OWE 30/4**.

Team	Game 1	Game 2	Game 3	Game 4	Game 5	Game 6
<u>A</u>	15	30	15	30	15	15
<u>B</u>	-40	-30	-40	-30	-40	-40
Net	15 -40	0-0	15 -40	0-0	15 -40	15 -40

- Use the "**Net**" row for the starting score in each series of 6 games.
