

## **Policy for member testing positive for Covid-19**

The LTA guidance requires KDRC, as a Covid-19 secure venue, to have in place a policy to cover a member testing policy.

The Main Committee has determined that the Club will rely on the Government's Test and Trace guidelines. Any member that tests positive should co-operate with NHS Test and Trace or the Local Authority when contacted after a positive test.

The Club will display the official QR code poster for members and visitors who enter the clubhouse or play indoor sports to scan with the NHS app.

In addition, the Club will maintain records of members that have fobbed in to enable it to respond quickly to any requests from NHS Test and Trace for details of members that have attended the Club.

As per main committee decision October 5th 2020
